Moveiton is a team that takes your project from spec to sales

We cover the full cycle: technical specification, design, development, launch, promotion and maintenance for the whole life of the project.

Our in-house team has every specialist an online business needs: designers, front-end and back-end developers, SEO and PPC specialists, QA engineers and system administrators.

Our mission is to be more than a contractor — a partner who is always there and covers every online need of any business.

The full cycle under one roof

01 Website development

Landing pages, business card and corporate sites, online stores, portals. Design and code from scratch, no templates.

02 CRM / ERP & automation

Custom cloud systems for your processes: accounting, orders, warehouse, leads, analytics. No monthly licence fees.

03 SEO & Google Ads

Promotion with results guaranteed in the contract, and ads tuned for leads, not clicks.

04 Support & growth

Maintenance of sites on Atom, WordPress, OpenCart, Laravel and more: updates, security, new features.

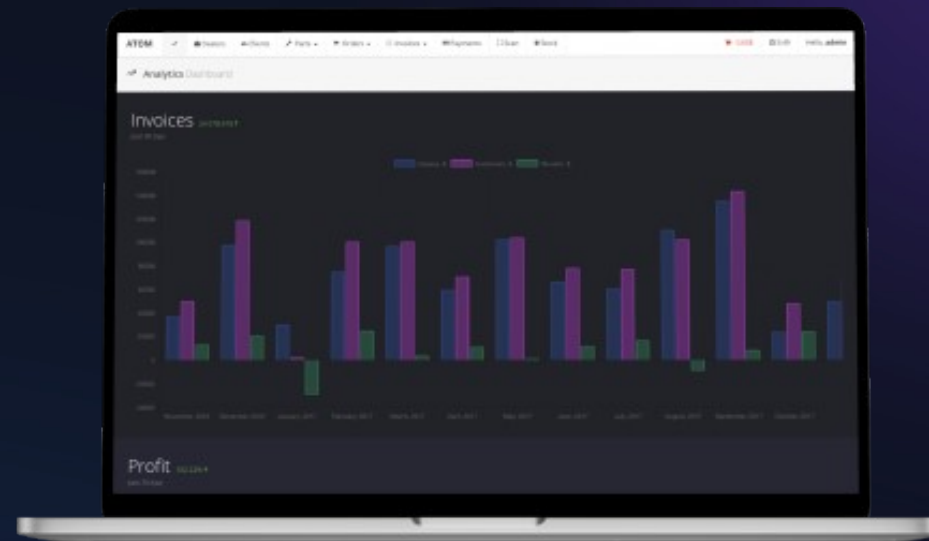

- **NEW · AI landing page in 72 hours — \$150. You see the design before you pay.**

— OUR OWN TECHNOLOGY

Atom CMF — our platform

Not a one-size-fits-all CMS, but a framework on CodeIgniter 4 + Vue.js that we use to build a system around your business. Ready modules cover typical tasks; everything else is written for you.

- Bank-level security
- Fast page loading
- A landing page easily grows into a store
- No vendor lock-in: standard PHP stack

The principles we work by

01 Partnership

A client is our partner, and their project is our project.

02 Responsibility

An official contract and a guarantee on all our work.

03 Honesty

We don't promise the impossible or sell what you don't need.

04 Unique solutions

No templates: we design and code for each project.

05 Enthusiasm

We take on the hardest tasks and build our own tech.

06 Speed

We reply within 9 minutes during business hours.
